CLIPPER CLARITY

Unlock the full potential of your clippers with Jac Ludlow Education's specialized course. While the conventional use of clipper grades provides an overall length, this course goes beyond, emphasizing the importance of mastering geometric angles for precision. Rather than relying solely on pre-set grades, we advocate for complete control over the angles you aim to achieve, asserting that true precision comes from utilizing your comb as a grading system.

Our program is meticulously crafted to instill confidence and proficiency in creating shorter length cuts, including skin fades, using only your clipper and comb for the back and sides. Delve into the art of geometric foundation creation with clippers, and complement it with various scissor techniques for the top of the head. Join us to revolutionize your approach, mastering the art of precision and elevating your barbering skills to new heights.
